

May 29th, 2009, Saint John, New Brunswick

Three New Companies join Atlantica Centre for Energy Board ADI, Corridor Resources & Maritimes & Northeast Pipeline

Stephen MacMackin, Chair of the Atlantica Centre for Energy, is pleased to announce the addition three new companies to the Board of the Atlantica Centre for Energy – ADI Limited, Corridor Resources Inc. and Maritimes & Northeast Pipeline. ADI Limited will be represented by Paul Morrison, President and Chief Operating Officer, Corridor Resources will be represented by Norm Miller, President, and Maritimes & Northeast Pipeline will be represented by Michael Whalen, General Manager. Also appointed to the Centre’s Board is UNBSJ Vice-President Dr. Robert MacKinnon and ACOA Senior Energy Advisor Andrew Noseworthy.

The Atlantica Centre for Energy is an industry association promoting the sustainable growth of the region’s energy sector. The objective of the Atlantica Centre for Energy is to foster partnerships between key stakeholders and the community to encourage broad-based community engagement in energy-related issues and policy development. It aims to act as a community-based resource for expertise, knowledge, and assistance to help make the opportunities associated with the energy hub a reality.

Atlantica Centre for Energy President Tim Curry stated: “Despite the fact that the current economy has affected different regions and sectors throughout the continent and globe, we are heartened by the fact that the energy sector in our region continues to attract interest and maintain its momentum.”

MEMBERS

ADI

ADI is a professional services company that provides services in most disciplines of engineering, project management, environmental management and architecture. It delivers innovative and cost-effective solutions to meet client's needs using a registered ISO 9001 quality management system. Bundled or individual services are provided to private, industrial, commercial, institutional and government clients by professionals, scientists, economists and technicians located in offices across Atlantic Canada and New England. <http://www.adi.ca>

Corridor Resources

Corridor Resources is a junior resource company engaged in the exploration for petroleum and natural gas onshore in New Brunswick, Prince Edward Island and Québec and offshore in the Gulf of St. Lawrence and the production of natural gas in New Brunswick. The Corporation has proven reserves of natural gas at one property, the McCully Field near Sussex, New Brunswick and Corridor has completed the required midstream facilities to connect an initial 13 wells to the Maritimes & Northeast Pipeline (M&NP). <http://www.corridor.ca>

Maritimes Northeast Pipeline

Maritimes & Northeast Pipeline (M&NP) operates a 1,400-kilometre transmission pipeline system built in 1999 to transport natural gas from developments offshore Nova Scotia to markets in Atlantic Canada and the northeastern United States. A joint venture of Spectra Energy (77.53%), Emera Inc. (12.92%), and ExxonMobil Canada (9.55%), M&NP is headquartered in Halifax, Nova Scotia. M&NP system capacity is approximately 530 million cubic feet per day. The M&NP system runs from the Sable Offshore Energy Inc. (SOEI) gas plant at landfall in Goldboro, through Nova Scotia, New Brunswick, Maine, New Hampshire, and Massachusetts. The M&NP mainline in the US interconnects with Portland Natural Gas Transmission System, Tennessee Gas Transmission, and Algonquin Gas Transmission. <http://www.mnpp.com>
